Internships

Web development

May 2025 - Jul 2025

- Gained hands-on experience by working on individual, real-world projects.
- Developed and deployed full-stack applications using modern technologies.
- Worked extensively with **frontend technologies**: React.js, Next.js, HTML, CSS, JavaScript.
- Built robust **backend solutions** with Node.js, Express.js, and integrated databases like MongoDB.
- Strengthened problem-solving skills and applied theoretical knowledge to practical development tasks.
